ABOUT ME

Creative and product-oriented Game Designer with over five years of experience designing gameplay systems, feature mechanics, player progression, and engaging user experiences across multiple game genres. Passionate about combining player psychology, data-informed decision making, and cross-functional collaboration to create polished, commercially successful games.

CORE COMPETENCIES

- Gameplay Systems & Mechanics Design
- Core Loop & Player Progression Design
- Feature Ideation & Rapid Prototyping
- Game Economy & Reward System Fundamentals
- Level Design & Player Experience (UX) Flow
- Game Design Documentation (GDDs & Feature Specs)
- Market Research & Competitive Analysis
- Cross-functional Collaboration & Stakeholder Management
- Product Ownership & Agile Development
- Team Leadership & Design Mentorship
- AI-assisted Design & Creative Workflows
- End-to-End Game Production

WORK EXPERIENCE

ZVKY Design Studio – Game Designer / Product Owner ***OCT 2022 - PRESENT***

- Led the end-to-end design and production of 25+ commercially released games for international clients.
- Designed core gameplay systems, feature mechanics, player reward structures, UI flows, and progression systems.
- Conducted market research, competitor analysis, and player behavior studies to develop engaging gameplay.
- Authored comprehensive Game Design Documents, feature specifications, and production documentation.
- Collaborated closely with the cross-functional team throughout the development life cycle.
- Led a small in-house design team, reviewing concepts, mentoring designers, and maintaining design quality.
- Utilized AI-powered tools to accelerate ideation, documentation, and early-stage design exploration.

Concept Haus India – Game Designer ***MAR 2021 - SEP 2022***

- Designed gameplay systems, levels, environments, and progression for mobile games across multiple genres.
- Created immersive player journeys using environmental storytelling, cinematic sequences, and level design.
- Produced game-ready assets and integrated them into game engines while collaborating with developers for optimized performance.
- Contributed to UI flow improvements and gameplay iteration based on design reviews.

Brainware University – Lab Assistant ***JUN 2019 - FEB 2021***

- Assisted in Game Design, Level Design, 3D Modelling, Animation, and Sound Design laboratories.
- Prepared technical documentation, assessments, and practical sessions.
- Developed strong foundations in structured game production workflows and mentoring.

PROJECT EXPOSURE

Slot Game Design

- Designed and delivered multiple commercially released land-based and online games for global publishers.
- Created innovative gameplay mechanics, feature systems, reward loops, and production-ready documentation.
- Worked closely with balancing specialists to fine-tune gameplay pacing and player engagement.

Casual/Hypercasual Game Design

- Designed gameplay mechanics, Game Design Documents, UI flows, and level progression for multiple casual and hypercasual games.
- Focused on intuitive onboarding, session design, and long-term player engagement.

RPG Fighting Game Design

- Designed combat encounters, character progression, environments, levels, and cinematic sequences.
- Planned player progression and gameplay flow while working as the primary designer on the project.

EDUCATION

PBSSD MODELLER *2018-2019*
Certificate in 3D Modelling

BHAIRAV GANGULY COLLEGE *2013-2016*
B.A. (Hons) English

USHUMPUR ADARSHA UCHCHA VIDYALAYA *2011-2013*
Higher Secondary

SKILL

- Game Design Documentation
- Level Design
- Market Research & Trend Analysis
- Game Economy Fundamentals
- Gameplay Systems Design
- Player Progression Design
- Cross-functional Collaboration
- Prototyping Fundamentals
- Feature & Mechanics Design
- UI/UX Flow Design
- Player Engagement & Retention
- Product Ownership

TOOLS & TECHNOLOGY

- JIRA
- Word
- GDevelop
- Audacity
- Autodesk Maya
- Adobe Photoshop
- Excel
- Unity
- Adobe After Effects
- Zbrush
- Figma
- PowerPoint
- Unreal Engine
- AI (ChatGPT, Claude, Gemini)
- Substance Painter
